AUXILIARY REPORT SHOWS THAT DEPARTMENT READY.

Quantities of Supplies on Hand—
Treasurer's Report Itemizes
Equipment Purchased.

The Woman's Auxiliary of the Annie M. Warner Hospital was organized on June 11th, 1920, and the following officers were elected: President, Mrs. C. B. Stover; First Vice President, Mrs. D. P. McPherson; Second Vice President, Mrs. H. T. Weaver; Secretary, Miss Nina G. Storrick; Treasurer, Miss Margaret McMillan; other members of the Executive Committee are: Mrs. W. A. McClean, Mrs. Wm. Hersch, Mrs. Harry Cunningham, Mrs. Warner and Miss Annie W. Horner.

A constitution was adopted and a meeting of the Executive Committee called for the following week. Since that time the Executive Committee has met at the call of the president, whenever a meeting was deemed necessary.

The following chairmen of committees were appointed:

Food: Mrs. W. A. McClean.
Gettysburg Membership: Mrs. H. T. Weaver.

Sewing: Mrs. Hersch.
Auxiliary Committee: Mrs. E. S. Lewars.

Report of Sewing Committee.

Number of sheets, towels, pillowcases, spreads, hospital garments, etc., which it has provided, is 1874. Some of these articles were donated to the Hospital by the Red Cross, and The Needlework Guild, but all have been carefully renovated and marked. The majority are new.

The Sewing Committee has devoted two and sometimes three afternoons a week to work for the hospital, and report that every article in their department of the hospital is now ready. The closets are fully stocked, beds are entirely outfitted, and all household supplies such as kitchen towels, tray covers, napkins and table covers are in their places.

Treasurer's Report.

The report of the treasurer shows cash receipts amounting to the sum of \$2005.67; total expenditures amounting to the sum of \$1629.64, leaving a balance in the treasury of \$376.03.

The expenditures have been chiefly \$1,000 for constructing roadway leading to hospital, and approximately \$375.00 for materials for hospital supplies.

Membership Committee.

The Gettysburg Membership Committee reports 472 members. The total membership in the county is 1286.

Branch Auxiliaries.

The chairman of the Branch Auxiliaries reports a total contribution of \$1214.45, \$814 of which is the sum of the membership fees, and \$400.45 income from entertainments given throughout the county. There are twelve branch auxiliaries.

Food Committee.

The chairman of the Food Committee canvassed a large section of the county and met a hearty response. The larger towns were canvassed by local committees and, on Farmers' Day truck loads of supplies were brought in. The supplies consisted of hundreds of jars of fruits, jelly and preserves, bushels of potatoes, both white and sweet, apples, beets, turnips, onions, cabbage, home-made soap, and all sorts of staple groceries.

When all available space at the hospital was filled, the soliciting ceased, but the willingness with which the county responded indicates that the Food Committee will have no difficulty in filling the larder. The food has been carefully inspected from time to time, and all is in excellent condition for the opening of the hospital. Perishable supplies were canned, or were sold and the money placed in the fund of the Food Committee.

Mrs. C. B. Stover, President.

Good Parent-Teachers' Meeting.

The Parent-Teachers' Association on last Friday evening had a program of excellent entertainment and instruction. The second grade of the High School furnished music under direction of Miss Borge and the Seminary Quartet, accompanied by Mrs. Elsie Singmaster Lewars sang several selections. Miss Elsie Gerlach gave several readings.

The talks were given by Dr. A. R. Wentz, of Seminary, and Prof. J. Y. Stambaugh, of Harrisburg.

Dr. Wentz declared that religious training in the home should begin twenty to thirty years before the child is born. He summed up the parents' obligation under three heads: First, cultivate the child's sense of order and justice; second, religious habits are the foundation of religious life. If the children are brought up in religious surroundings in with a religious foundation they are bound to lead religious lives; third, assume the right attitude in the presence of a child for they are very susceptible to suggestion.

Prof. Stambaugh spoke on the compulsory attendance law, making a strong plea for co-operation between parents and school and not to keep children out of school for any selfish end. That the army and census had revealed the stringent measures needed to compel school attendance and eliminate illiteracy.

Artist Wins Prize.

A former Adams county resident is represented in the exhibition this year at the Pennsylvania Academy Exhibition. Charles Morris Young was awarded the Jennie Sesan Gold Medal for the best landscape. It is said of the Pennsylvania exhibition that the landscapes exercise a special charm, refreshing with pictures by Hassam, Redfield, Young and Garber. The landscape prize was taken by Mr. Young for his picture "Wind on the Sound," a picture as breezy as it should be to justify its title. The breeziness is simply interpreted.

Health School Law.

The Health Department of the State and school authorities are calling attention to the following sections of the law applicable to the health of school children.

Section 9. That every teacher, principal, superintendent or other person or persons in charge of any public, private, parochial, Sunday, or other school, having in any school any child or person showing an unusual rash or skin eruption, or complaining of soreness in the throat, or having symptoms of whooping-cough or any disease of the eye, shall immediately exclude such child or other person from the schools, pending the action of the health authorities, and shall report such fact to the health officer of the city, borough or township, giving the name and residence of such child or other person.

Section 10. No child or other person, excluded from any school by the provisions of this act, shall be readmitted thereto unless he or she, or some person on his or her behalf, shall furnish to the principal, superintendent, or teacher, or other person in charge of said school, a certificate setting forth that the conditions for such readmission prescribed by this act have been complied with; which certificate shall be signed by a person to be designated for that purpose, in cities, boroughs, and townships of the first class, by the health authorities thereof exclusively; and in townships of the second class, and cities, boroughs, and townships of the first class, not having boards of health or bodies acting as such, by the State Department of Health.

Hospital Directors.

At a meeting last Friday of the Board of Directors of the Annie M. Warner Hospital, two vacancies in the board by resignation were filled by the election of J. Harry Holtzworth of Gettysburg, and John Muselman of Orrtanna.

THE EMERGENCY FUND

FOR HOSPITAL IS NEAR THE FIFTY PER CENT. MARK.

Fund Can Easily Go Over the Top by Time the Hospital Opens on March 15. Got Busy.

The Emergency Fund for the opening of the Annie M. Warner Hospital is steadily mounting. It is near the fifty per cent. mark. It has been largely voluntary, our people giving because they want to give for a good cause. With the half given in two weeks, the other half should come by the opening time on March 15.

When the hospital will open and many of the beds are occupied and nurses and physicians are in attendance and life is being saved and restored to health, when every one is busy with making the hospital a success will be no time for a management to be looking at the bottom of a barrel of supplies. This emergency fund is to prevent any such event. The supply barrel must be kept replenished so that there will be receipts to cover all necessary expenditures. At the start it is necessary to have an emergency fund to prevent anything like an empty barrel to meet current expenses. A few years hence when difficulties of starting are over, when the endowment is making interest income available, when State and County are making annual appropriations, the wrinkles of making receipts cover expenses will have been ironed out and all those who have given will be glad that they have helped the hospital through a time of emergency need.

The hospital has twenty-four directors in all parts of the county. Six contributions can be handed them or to the physicians who will be glad to see that contributions delivered to them are sent in. Or they can be given to the Secretary, Wm. Arch. McClean. The following received since our last issue are hereby acknowledged:

An Adams County Oyster.

Thirty-five feet below the surface of the ground an Italian workman found a perfect specimen of a fossilized double oyster shell imbedded in the limestone rock in the Smith quarries near York Springs last Thursday. A blast had loosened a portion of rock in which the shells were imbedded and the workman carefully removed the shells which he presented to Dr. C. L. Myers, of York Springs. The physician will present the fossils to the York Springs High School where it will be added to the geological collection.

Collins and Rinecker Again Respired.

News came to town Wednesday evening that a respite had been issued by Governor Sproul, by which the time of execution of Clarence R. Collins and Charles C. Rinecker had been extended from the week of Feb. 28, until the week of March 28. No reason was given for the extension. The commutation of the death penalty was refused about ten days ago, and it is supposed that while a commutation was refused a thirty day respite was granted in order that the prisoners may prepare themselves for their punishment.

Unavoidably Detained.

Dr. Eugene Elgin, Representative in the Legislature at Harrisburg from Adams county, was absent from his seat in the House on a recent day and when the time came to ask for leave of absence Mr. Cook, of Dillsburg, asked that privilege for Dr. Elgin, who, he said, as it has been reported, had been detained at home by both "illness and joy." The stork had been at the Elgin home, the bird's first visit. Members smiled, and readily assented to the leave requested.

FARM BUREAU IN MEETING.

Take Action Against Legislation in Favoring Daylight Saving.

The annual meeting of the Adams County Farm Bureau was held in the Court House Friday afternoon, Feb. 18. One hundred and fifty Adams county farmers were present and took part in proceedings. The new Executive Committee which was elected for the ensuing year was: J. L. Butt, President; C. J. Tyson, Vice President; F. A. Waybright, Treasurer; J. C. Bream, Secretary; George E. Motter, P. H. Myers, Edgar N. Rhodes, E. F. Strasbaugh, G. W. Koser, W. H. Stock and Superintendent of Schools H. M. Roth who automatically becomes a member by virtue of his office. The Farm Bureau went on record as opposing any legislation favoring daylight saving. The Bureau also voted against the proposed legislation of licensing all vehicles such as wagons, buggies, threshing outfits, etc. The Bureau also went on record as being opposed to the Tractor Law as it now stands prohibiting farmers from moving their tractors with cleats necessary for field work from one field to another, across or along improved highways.

A committee of five men was appointed to see that the action of the Farm Bureau was presented to the proper authorities.

After the business session Dr. R. L. Nixon, of State College, gave an illustrated lecture on Plant Diseases, dealing largely with those affecting potatoes. Dr. H. H. Havner, of State College, gave a short talk on Better Livestock and the benefits to be derived by Breeders' Associations.

At 7:00 o'clock one hundred and thirty farmers and members of the Gettysburg Chamber of Commerce joined in a banquet at the Eagle Hotel. C. S. Duncan was toastmaster of the evening and after making a few remarks on behalf of the Chamber of Commerce, called on C. J. Tyson to say a few words for the Farm Bureau. Prof. E. K. Hibbsman, of State College, was the next speaker and dwelt upon Community Development. He also spoke briefly of the needs of State College and the relation of the College to every citizen of the State.

Dr. C. G. Jordan, minister, Chautauqua lecturer, farmer and Chairman of the Agricultural Committee in the House of Representatives at Harrisburg was then introduced as the main speaker of the evening. "Farmers you get together and organize like the town folks do in their Chambers of Commerce and their Rotary Clubs. Organize, organize, organize. Learn to ask for what's coming to you. If you ask for more than what's coming to you, farmers, I'll fight you. If you ask for less, I'll fight you. Town folks you get behind the farmers. Demand of your representative at Harrisburg and of your Congressman at Washington that they protect agricultural like they protect every other industry."

These words were the keynote of Dr. Jordan's address which throughout urged co-operation between town man and farmer. His forceful and convincing delivery intermingled with clever humor kept the crowd at attention for a full hour and at the end of that time they adjudged him the best speaker heard here recently.

ARENDTSTVILLE.

Last Saturday evening about 7 o'clock it began snowing and blowing and kept it up at a fearful gale until Sunday evening at 4 o'clock, when 13 inches of snow had fallen. It was the severest snow storm we had since Feb. 12, four years ago. Many people could not get to church on Sunday on account of the snow blocked roads.

On account of the deep snow there are very few autos out, but the sleighs and sleds are out in full. Reynolds Criswell is putting a fresh coat of white paint on his house and it adds much to the appearance of it.

The heavy body of snow on the front part of the roof of Mrs. H. P. Mark's house went down in a slide and took part of the tin spouting with it to the pavement.

The new machinery ordered is nearing completion and is expected to arrive in March and to be installed and in operation by the middle of April.

AMERICAN STOCKMEN GIVE DAIRY COWS TO GERMANY

American farmers and stockmen heard the cry from central Europe of depleted breeds and despair of dairymen. Like the American corn growers who gave freely to the starving nations, so the cattlemen and dairymen of Kansas, Arkansas, Oklahoma and Texas have given and today in the district around about Bremen, Germany, graze a thousand American cows and calves, their gift to the unfortunate dairymen there. Thirty American farmers' sons cared for the cows en route, which were shipped from Galveston about six weeks ago. The picture is of a part of the herd before shipping.

Stambaugh, of Harrisburg, on School Attendance, calling attention to the law that school children between the ages of 8 and 16 years must attend school. Parents ought to want to send their children to school regularly and promptly whether the law requires it or not.

Miss Mary R. Harris, of the Shippenburg Normal School, also addressed the rally on Proper Method of Instruction in Primary Schools.

Miss Margaret McMillan, the Red Cross Secretary, brought the children home, Donald Bream, Martha McMillan, and Margaret Hankey. Their limbs were in plaster casts and must so remain for about eight weeks. There are indications already of the success of the operations showing a muscular control of the toes which has never before been possible.
